

Hi there !

# Muhammed Erdem

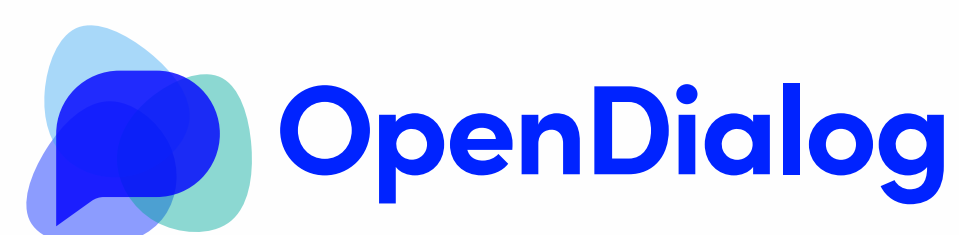

FRONT-END ENGINEER

muhammed.erdem.dev

muhammed@erdem.dev

Specialized in front-end development but also like trying out other technologies in order to become more flexible.

## Experience

### OpenDialog

February 2023 - Present

Remote

CONTRACTOR

### Senior Front-end Engineer

Vue Vite TypeScript Pinia Figma

Conversational AI for companies as chat bot

- Led the charge in developing a Vue 3 application, harnessing the power of TypeScript and Vite.
- Made full use of Vue's composition API to enhance the project's core functionality.
- Created a dedicated library, filled with tailored components that powered our webchat project.
- Enhanced user engagement and interface fluidity by creating dynamic web components tailored to project requirements.
- Achieved seamless interactivity and functionality by integrating innovative solutions throughout the development lifecycle.

### Helio Finance

June 2022 - January 2023

Remote

CONTRACTOR

### Senior Front-end Engineer

React NextJS TypeScript GraphQL Figma

Web3 payments platform for creators & businesses to accept crypto payments.

- Crafted a web3 payments platform for accepting crypto payments from creators & businesses.
- Built custom interactive components to enrich user experience.
- Constructed intuitive landing pages to promote company projects.
- Developed a React NPM package to facilitate embedded button integration into the platform.
- Assisted Helio Community with product integration onto the platform.
- Built custom interactive components to enrich user experience.

### Postpay

July 2021 - January 2022

Remote

CONTRACTOR

### React Native Engineer

React Native GraphQL TypeScript Figma

Online shopping app that lets you buy now, pay later in UAE.

- Developed React Native based mobile app that enabled seamless payment experience with GPay integration in UAE.
- Improved user experience by delivering a faster, more reliable architecture and development environment.
- Constructed intuitive landing pages to promote company projects.
- Leveraged GraphQL, TypeScript to create modern, feature-rich shopping application.
- Released the mobile app on AppStore and PlayStore simultaneously.

### The Coingaming Group

April 2020 - July 2020

Remote

CONTRACTOR

### Senior Front-end Engineer

React NextJS GraphQL TypeScript Figma

One of the well-known crypto gaming company in the industry.

- Innovated components for renowned crypto gaming platforms bitcasino.io and slots.io using React Functional Components.
- Optimized development environment by developing hooks, context api's to facilitate state managements.
- Crafted compelling UI/UX experiences across multiple devices and browsers.

# BOYNER

## Boyner Group

April 2019 - April 2020  
Istanbul, Turkey

## Pixelate Creative Studio

November 2017 - April 2019  
Istanbul, Turkey

TEAM LEAD

## Pixel360 Software Co.

May 2016 - August 2017

## Front-end Engineer

VueJS TypeScript Gulp Rollup Figma

Boyner Group is Turkey's leading store and fashion retail group with more than 250 stores, e-commerce sites and mobile applications.

- Conceived and built product detail, basket, and checkout pages using VueJS/Vuex.
- Constructed modular components with Gulp, Rollup, JS and CSS Modules to streamline development.
- Addressed local JAMStack groups on NPM, Yarn and WebAssembly in multiple presentations.
- Ranked #1 and #6 in Codepen.io's 2019 Most Hearted list (<https://codepen.io/2019/popular/pens/10>).

## Front-end Engineer

VueJS SCSS JavaScript Axios JQuery Adobe XD Photoshop

A creative digital agency that provides digital services for its customers.

- Developed user interfaces with VueJS and Vanilla Javascript, leading development team to success.
